

NOTES

Prior to haul out, Oakdale Yacht requires that Owners:

- Remove all electronics, dock lines, shore power cords, canvas, perishables & other items considered to be personal property. Oakdale Yacht is **NOT** responsible for damage or loss of any personal property left on the boat.
- To assist in preventing condensation, fill all fuel tanks of the boat or Oakdale Yacht will fill the tank at the owner's expense to 3/4 full. Fuel stabilizer must be added to the fuel tank.
- Heads must be pumped. If your holding is full, you will be billed \$150 extra on top of winterization for head pump out at time of winterization.
- Owners are required to have sufficient rope on board to secure the boat.
- All work performed by Oakdale Yacht is guaranteed by Oakdale Yacht.
- Oakdale Yacht reserves the right to store boats at our discretion.
- As stated, all parts for winterization are additional.
- All boats are required to be covered or shrink-wrapped. Please refer to our shrinkwrapping policies.
- Oakdale Yacht will not be responsible for any scratches, scrapes, or underwater gear damage recorded by OYS at the time the boat is brought in and will not be responsible for weather related damage.
- Oakdale Yacht will schedule Haul out on or about the last day the boat will be used. Oakdale Yacht is not responsible for weather-related delays.
- There will be a \$100.00 charge for any boat being brought from customer slip to the basin for haul out.
- Oakdale Yacht/GCM no longer stores batteries.
- Oakdale Yacht/GCM no longer stores trailers on premises. CUSTOMERS MUST TAKE TRAILERS HOME OR STORE at GCM for \$100.00 per month.
- NEW for 2023: IN-WATER BOAT STORAGE
Call for Details.
- Prices shown do not include "On-Land" Winter Storage. Storage is billed separately from Service.

EXPLANATION OF WINTERIZATION CHARGES

****All boats are to be removed from the water before December 1st.**

- **Haul & Block** - with travel lift or forklift as appropriate.
- **Power Wash** - The boat will be cleaned from the waterline down. There will be an additional charge for materials (acid) and/or labor if the boat bottom is found to be excessively fouled. Power Wash is mandated by the insurance company.
- **Winterize Engines** - (Includes oil and filter change) any engine that is stored for any extended period should have fresh oil to remove all condensation and corrosive elements, which is why we include this in our winterization. Each engine is fogged with special oil to ensure proper coating of all internal engine parts and non-toxic anti-freeze is run through the engines. Includes changing primary and secondary fuel filter, additional fuel filters will be charged at \$25.00 each labor.
- **Winterize Generator** - Same procedures as winterizing engine - (This also includes oil and filter change.)
- **Winter Outdrive Service Package** - Includes removal of the drive, inspection of bellows and gimbal bearing, greasing of U-Joint assembly, split drive and clean, pressure check unit, drain oil to check for any water or other contamination, refill with fresh MerCruiser or appropriate oil, vacuum test unit for any leaks, winter storage of outdrive, replace zincs, check engine alignment, install new gasket and O-ring set, and reinstall drive in the spring.
- **Water Pump Replacement** - Includes removal and replacement of the water pump in the lower unit as recommended by MerCruiser, Oakdale Yacht will perform any outdrive work including any damage, inspection of unit, etc. (Parts are at an addition charge.)
- **Winterize Fresh Water System** - Consists of draining the entire domestic water system, including the hot water tank, blowing the system clean with compressed air or the filling and cycling of a non-toxic antifreeze to ensure that no part of your system will freeze, causing many costly repairs.
- **Winterize Air Conditioning Unit** - Includes the draining of the system, including the pump, blowing the system clean with compressed air, and pumping anti-freeze through the saltwater side.
- **Marine Toilet** - *Each unit must be empty or a service charge of \$150.00 will be applied. Includes draining the unit, including any and all pumps, macerators, etc., system is filled with non-toxic anti-freeze and cycled through to ensure all components are protected.
- **Port-A-Potti** - *Must be empty or a service charge will be applied. System is flushed with compressed air and cycled with a small amount of anti-freeze.
- **Shrinkwrap** - Includes all materials plus installation. Provides superior protection against the bad weather, prevents the fading of gel coat, and reduces the growth of mildew. Shrinkwrap is guaranteed for 6 months. Each customer is charged a recycling fee per job. Mildew Buckets will be added, as needed, based on size of boat and will be billed on the invoice.
- **Winter Waxing** - Wash and wax hull/deck to protect over the winter months.
